

SteakMaker® Grower 36-13 (VP)

Type of Feed: Supplement **Form of Feed:** Pellet or Meal

General Description:

This product is designed for growing cattle on high forage rations. It contains plant protein products and urea to meet the calf's need for intact protein and NPN. This product does not contain animal protein products.

LAND O LAKES® STEAKMAKER® GROWER 36-13 (VP)

(For Ruminants Only)

FOR GROWING CATTLE FED IN CONFINEMENT

CAUTION: FEED AS DIRECTED

GUARANTEED ANALYSIS

Crude Protein, Not less than.....	36.0 %
(This includes not more than 13.0% equivalent crude protein from non-protein nitrogen.)	
Crude Fat, Not less than.....	1.0 %
Crude Fiber, Not more than.....	15.0 %
Calcium (Ca), Not less than.....	4.0 %
Calcium (Ca), Not more than.....	5.0 %
Phosphorus (P), Not less than.....	0.80 %
Salt (NaCl), Not less than.....	3.0 %
Salt (NaCl), Not more than.....	4.0 %
Magnesium (Mg), Not less than.....	0.5 %
Potassium (K), Not less than.....	0.7 %
Copper (Cu), ppm, Not less than.....	190
Selenium (Se), ppm, Not less than.....	4.1
Zinc (Zn), ppm, Not less than.....	650
Vitamin A, I.U./lb, Not less than.....	40,000
Vitamin D ₃ , I.U./lb, Not less than.....	10,000
Vitamin E, I.U./lb, Not less than.....	50

INGREDIENTS

Plant Protein Products, Processed Grain By-Products, Urea, Forage Products, Molasses Products, Dried Bakery Product, Roughage Products (not more than 40%), Grain Products, Vegetable Oil, Calcium Carbonate, Salt, Monocalcium/Dicalcium Phosphate, Sodium Selenite, Zinc Sulfate, Potassium Chloride, Manganese Sulfate, Magnesium Oxide, Ethylenediamine Dihydriodide, Cobalt Carbonate, Basic Copper Chloride, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Mineral/Oil

FEEDING DIRECTIONS

This supplement is designed to be fed to cattle at the rate of 0.75 to 1.5 lbs/head/day. This supplement should be mixed with grain and/or roughage prior to feeding. Provide sufficient bunk space so all cattle can eat at the same time. Cattle should have access to fresh, clean water at all times.

Available Additives:

Product No.	Options	Active Drug	Active Drug Level
1690050	NM	Non-Medicated	None
1690052	R400	Rumensin	400 g/ton
1690056	B400	Bovatec	400 g/ton
1690057	B500	Bovatec	500 g/ton
1690060	R400	Rumensin	400 g/ton
	H-0.4	MGA	0.4 mg/lb

Product Features:

36% Protein with 13% protein equivalents from NPN

4-5% Calcium, 0.8% Phosphorus

Adequate phosphorus for growing animals without being excessive

100% vitamin and trace mineral fortified

Available with various levels of different approved feed additives

Product Benefits:

Vegetable protein sources and NPN to meet protein requirements and maximize animal performance with economical cost of gain

Fortified to maintain recommended Calcium:Phosphorus ratio in most diets

Optimizes animal performance while reducing environmental concerns with manure management

No need to feed extra mineral supplements to meet requirements

Wide range of options allows diets to be targeted for specific feeding situations, improving feedlot performance

Usage Tips

SteakMaker Grower 36-13 (VP) contains vegetable (plant) proteins as the primary source of protein as well as a moderate amount of NPN (urea) to meet the ruminal requirements for protein in young, growing cattle. Its moderate level of NPN makes it ideally suited to work with silage-based diets (corn and sorghum). This supplement is typically fed at 1.0 to 1.5 lb/h/d depending on the nutrient profile of other ration ingredients, ration energy content, age and size of cattle being fed and the medicated option used.

Key Points

1. Moderate NPN level for economical cost of gain while providing the rumen with important rumen degradable protein.
2. All feeds containing a moderate to high amounts of NPN can absorb moisture during periods of high relative humidity. The supplement may become hard in the sack or bridge in bulk bins. In extreme cases, pellets may become soft and crumble easily.
3. This product contains no animal protein sources for situations where only vegetable protein sources are preferred.
