

SteakMaker® Grower 55-25 (VP)

Type of Feed: Supplement

Form of Feed: Pellet or Meal

General Description:

This product is designed for growing cattle on high forage rations. It contains plant protein products and urea to meet the calf's need for intact protein and NPN. This product does not contain animal protein products.

LAND O LAKES®
STEAKMAKER® GROWER 55-25 (VP)

(For Ruminants Only)
 FOR GROWING CATTLE FED IN CONFINEMENT

GUARANTEED ANALYSIS

Crude Protein, Not less than.....	55.0 %
(This includes not more than 25.0% equivalent crude protein from non-protein nitrogen.)	
Crude Fat, Not less than.....	1.0 %
Crude Fiber, Not more than.....	15.0 %
Calcium (Ca), Not less than.....	5.0 %
Calcium (Ca), Not more than.....	6.0 %
Phosphorus (P), Not less than.....	0.80 %
Salt (NaCl), Not less than.....	3.0 %
Salt (NaCl), Not more than.....	4.0 %
Magnesium (Mg), Not less than.....	0.5 %
Potassium (K), Not less than.....	0.7 %
Copper (Cu), ppm, Not less than.....	190
Selenium (Se), ppm, Not less than.....	4.1
Zinc (Zn), ppm, Not less than.....	650
Vitamin A, I.U./lb, Not less than.....	40,000
Vitamin D ₃ , I.U./lb, Not less than.....	10,000
Vitamin E, I.U./lb, Not less than.....	50

INGREDIENTS

Plant Protein Products, Urea, Roughage Products (not more than 40%), Forage Products, Processed Grain By-Products, Molasses Products, Dried Bakery Products, Grain Products, Vegetable Oil, Calcium Carbonate, Salt, Monocalcium/Dicalcium Phosphate, Sodium Selenite, Zinc Sulfate, Magnesium Oxide, Potassium Chloride, Manganese Sulfate, Ethylenediamine Dihydriodide, Cobalt Carbonate, Basic Copper Chloride, Vitamin A Supplement, Vitamin D₃ Supplement, Vitamin E Supplement, Mineral Oil

FEEDING DIRECTIONS

This supplement is designed to be fed to cattle at the rate of 0.75 to 1.5 lbs/head/day. This supplement should be thoroughly mixed with grain and/or roughage prior to feeding. Provide sufficient bunk space so all cattle can eat at the same time. Cattle should have access to fresh, clean water at all times.

Available Additives:

Product No.	Options	Active Drug	Active Drug Level
1690066	NM	Non-Medicated	None
1690068	R400	Rumensin	400 g/ton
1690071	B300	Bovatec	300 g/ton
1690073	B500	Bovatec	500 g/ton
1690076	R400	Rumensin	400 g/ton
	H-0.4	MGA	0.4 mg/lb

Product Features:**Product Benefits:**

55% Protein with 25% protein equivalents from NPN	Vegetable protein and NPN sources are used to meet protein requirements and maximize animal performance with economical cost of gain
5-6% Calcium, 0.8% Phosphorus	Fortified to maintain recommended Calcium:Phosphorus ratio in most diets
Adequate phosphorus for growing animals without being excessive	Optimizes animal performance while reducing environmental concerns with manure management
100% vitamin and trace mineral fortified	No need to feed extra mineral supplements to meet requirements
Available with various levels of different approved feed additives	Wide range of options allows diets to be targeted for specific feeding situations, improving feedlot performance

Usage Tips

SteakMaker Grower 55-25 (VP) contains vegetable (plant) proteins as the primary source of protein as well as a moderate amount of NPN (urea) to meet the ruminal requirements for protein in young, growing cattle. Its moderate level of NPN makes it ideally suited to work with silage-based diets (corn and sorghum). Typical feeding rates are 0.75 to 1.5 lb/head/day.

All ration adjustments should be made on a gradual basis. Use good bunk management techniques and procedures to prevent digestive disturbances and optimize dry matter intake and animal performance. SteakMaker Grower 55-25 (VP) supplements should be thoroughly mixed with grain and roughage. Follow label directions for mixing instructions.

For best results, a feeding program using Land O' Lakes Farmland Feed beef ration balancing program(s) should be developed.

Key Points

1. Moderate NPN level for economical cost of gain while providing the rumen with important rumen degradable protein.
2. All feeds containing a moderate to high amounts of NPN can absorb moisture during periods of high relative humidity. The supplement may become hard in the sack or bridge in bulk bins. In extreme cases, pellets may become soft and crumble easily.
3. This product contains no animal protein sources for situations where only vegetable protein sources are preferred.
4. Balances growing diets composed of silages (corn and sorghum).
