INGREDIENTS

Processed Grain By-Products, Molasses Products, Plant Protein Products, Roughage Products (not more than 22.0%), Calcium Carbonate, Salt, Monocalcium Phosphate, Dicalcium Phosphate, Sodium Selenite, Zinc Sulfate, Iron Oxide, Manganese Sulfate, Basic Copper Chloride, Magnesium Mica, Ethylenediamine Dihydriodide, Cobalt Carbonate, Vitamin E Supplement, Vitamin A Supplement, Vitamin D3 Supplement, Mineral Oil

DIRECTIONS FOR USE

This product is designed to be fed at 0.4 pounds per head per day to cattle on high grain and/or grain by-product rations.

Available Additives:

Product No.	Options	Product Names	Active Drug	Active Drug Level
1720057	NM	SM Grower Formulator	None	
1720006	R1000	SM Grower Formulator R1000	Rumensin	1000 g/ton
1720005	B1200	SM Grower Formulator B1200	Bovatec	1200 g/ton

Product Features:

12% Calcium, 1.0% Phosphorous

Vitamin and trace mineral fortified

Designed to be fed at 0.3 to 0.5 lb/head daily

Product Benefits:

Provides supplemental calcium to otherwise calcium deficient diets.

Supports skeletal growth and immune system function; meets animal requirements.

Reduces supplement cost; helps to reduce feed inventory costs.

Usage Tips

SteakMaker® Grower Formulator is designed to provide balanced nutrition when extra protein is not needed. Such feeding situations may include growing rations containing legume-based forages (less than 50% of the ration); corn by-products (distillers grains, gluten), or high protein grains (barley, wheat).

Recommended feeding rates of SteakMaker® Grower Formulator is 0.4 lb per head daily. Thoroughly mix SteakMaker® Grower Formulator with non-medicated feed prior to feeding.

Key Points

1. Use in rations needing extra calcium, not protein.
2. Modest feeding rate lowers cost of supplementation and supports cost of gain.
3. Provides proper level of vitamins, minerals and feed additives when fed according to label directions.
