**Product Features:****Product Benefits:**

15.5% Calcium, 0.1% Phosphorous

Provides supplemental calcium to otherwise calcium deficient diets.

Vitamin and trace mineral fortified

Supports skeletal growth and immune system function; meets animal requirements.

Designed to be fed at 0.5 to 1.0 lb/head daily

Modest supplement cost; helps to reduce feed inventory costs.

Pelleted

Prevents ingredient separation, helps assure you of consistent nutrient and feed additive delivery.

**Usage Tips**

SteakMaker® Finisher Balancer is a pelleted, high calcium supplement designed to be used in growing and finishing rations with otherwise adequate protein. These rations may contain legume hay/haylages or plant protein ingredients (whole soybeans, soybean meal, etc.). This is not the product of choice for rations containing more than 50% high moisture corn or distiller's grains or gluten feed. These type rations should be fortified with SteakMaker® Co-Product Balancer.

Recommended feeding rates of SteakMaker® Finisher Balancer is 0.5 to 1.0 lb per head daily. Thoroughly mix SteakMaker® Finisher Balancer with the noon-medicated ration prior to feeding.

**Key Points**

1. Use in growing and finishing diets containing adequate protein, such as diets containing whole soybeans, soybean meal, wet or dry corn gluten feed or alfalfa hay/haylages.
2. Moderate feed rate lowers cost of supplementation and supports cost of gain.
3. Pelleted to reduce the risk of ingredient separation.
4. Provides proper level of vitamins, minerals and feed additives when fed according to label directions.
