

Pro-Phos 8 Mineral B-1440

Type of Feed: Complete mineral **Form of Feed:** Meal

General Description:

This 8% phosphorus mineral is medicated with Bovatec and is designed to improve weight gain of pastured cattle.

LAND O LAKES®
PRO-PHOS 8 MINERAL B-1440

MEDICATED
FOR GRAZING CATTLE

For increased rate of weight gain in pasture cattle (slaughter, stocker, feeder cattle and dairy and beef replacement heifers).

ACTIVE DRUG INGREDIENT

Lasalocid (as Lasalocid Sodium) 1440 g/ton
Each pound contains 720 mg lasalocid

DIRECTIONS FOR USE

Thoroughly mix 300 lbs PRO-PHOS 8 MINERAL B-1440, MED. with 1700 lbs non-medicated grain (2.4 oz with 13.6 oz grain). Do not feed this mineral free choice.

GUARANTEED ANALYSIS

Calcium (Ca), Not less 12.7 %
Calcium (Ca), (Max) 15.2 %
Phosphorus (P), (Min) 8.0 %
Salt (NaCl), (Min) 16.5 %
Salt (NaCl), (Max) 18.5 %
Magnesium (Mg), (Min) 2.0 %
Potassium (K), (Min) 0.1 %
Zinc (Zn), ppm, (Min) 2,185
Manganese (Mn), ppm, (Min) 1,250
Copper (Cu), ppm, (Min) 650
Iodine (I), ppm, (Min) 65
Selenium (Se), ppm, (Min) 22.0
Vitamin A, I.U./lb, (Min) 150,000
Vitamin D₃, I.U./lb, (Min) 12,000
Vitamin E, I.U./lb, (Min) 60

For increased rate of weight gain: Feed cattle 1 lb/head/day to provide 108 mg lasalocid/animal/day. Feed continuously at a rate to provide no less than 60 mg nor more than 200 mg of lasalocid/head/day (0.56 to 1.85 lbs mixed ration/animal/day).

SAMPLE

DO NOT FEED TO SHEEP BECAUSE OF HIGH LEVELS OF SUPPLEMENTAL COPPER.

CAUTION

Do not allow horses or other equines access to supplements containing lasalocid, as ingestion may be fatal. The safety of lasalocid in unapproved species has not been established. Feeding undiluted or mixing errors resulting in excessive concentrations of lasalocid could be fatal to cattle and sheep. Do not feed to lactating dairy cattle.

INGREDIENTS

Monocalcium/Dicalcium Phosphate, Calcium Carbonate, Salt, Distilled Dried Grains with Solubles, Molasses Products, Yeast Culture, Magnesium Mica, Magnesium Oxide, Sodium Selenite, Zinc Sulfate, Iron Oxide, Manganese Sulfate, Basic Copper Chloride, Ethylenediamine Dihydriodide, Cobalt Carbonate, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Mineral Oil, Natural and Artificial Flavor

WARNING

A withdrawal period has not been established for this product in preruminating cattle. Do not use in calves to be processed for veal.

**FERMENTATION FORTIFIED WITH
DIAMOND V XP™ YEAST CULTURE**

Available Options:

Product No.	Mineral Name	Active Drug Name	Active Drug Level
1990110	Wheat Pasture Pro Bloat Control Mineral	Poloxolene	40,000 g/t
1990111	Wheat Pasture Pro Mineral B1440	Bovatec	1440 g/t
1990072	Pro-Phos 8 B1440 Mineral	Bovatec	1440 g/ton

Product Features:

Vitamin and trace mineral fortified

Contains Diamond V's "XP" yeast culture for improved mineral palatability

Medicated with Bovatec

Product Benefits:

Fortified to optimize stocker cattle growth and efficiency

Better palatability helps maintain consistent feed intake.

To maximize gains of stocker cattle on pasture; mix with non-medicated feeds prior to feeding to insure proper consumption

Usage Tips

Thoroughly mix medicated Pro-Phos or Wheat Pasture Medicated Minerals with non-medicated grain or grain by-products according to label directions. Feed this mix continuously at 1 lb./head daily to provide targeted level of Bovatec.

CAUTION: Do not feed to sheep or allow sheep access to this mineral because of the high level of supplemental copper.

Key Points

1. Increased rate of gain in pastured cattle of 0.1 to 0.2 lb/head/day have been documented with use of feed additives compared to non-medicated controls.
2. Mixing with grain or grain by-products for hand feeding accuracy of feed additives.
