

Pro-Phos 8 Tasco Mineral

Type of Feed: Complete mineral **Form of Feed:** Meal

General Description:

Pro-Phos 8 TASC0 Mineral can be fed to all cattle on medium quality range or grass

LAND O LAKES®
PRO-PHOS 8 TASC0 MINERAL
 FOR PASTURED CATTLE

GUARANTEED ANALYSIS

Calcium (Ca), (Min).....	12.0 %
Calcium (Ca), (Max).....	14.0 %
Phosphorus (P), (Min).....	8.0 %

Vitamin D ₃ , I.U./lb, (Min).....	12,000
Vitamin E, I.U./lb, (Min).....	60

INGREDIENTS

Monocalcium/Dicalcium Phosphate, Salt, Calcium Carbonate, Distillers Dried Grains with Solubles, Yeast Culture, Molasses Products, Dried Seaweed Meal (10% Minimum) Magnesium Oxide, Sodium Selenite, Zinc Sulfate, Manganese Sulfate, Iron Oxide, Basic Copper Chloride, Ethylenediamine Dihydriodide, Cobalt Carbonate, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Mineral Oil, Natural and Artificial Flavor

DIRECTIONS FOR USE

PRO-PHOS 8 TASC0 MINERAL is recommended for free-choice feeding to all cattle which are receiving rations composed largely of grass hay or for cattle grazing range or grass pasture. Optimum intake is 2 to 4 oz. per head daily. Maximum intake is 4.8 oz (0.3 lb) per head daily.

Cattle, which have been receiving phosphorus diets, may over-consume PRO-PHOS 8 TASC0 MINERAL when it is first offered. During the first 5 to 7 days of free-choice feeding, limit the intake to 1 lb. for each 5 to 8 head per day.

To assure adequate mineral intake, remove all other salt and mineral products. Have an adequate water supply available and place the mineral feeder near the water supply or in the animals' loafing area. Put out fresh mineral once a week. An upright mineral feeder is recommended to protect the mineral from weather.

DO NOT FEED TO SHEEP OR GOATS DUE TO HIGH LEVELS OF SUPPLEMENTAL COPPER.

FERMENTATION FORTIFIED WITH DIAMOND V XP™ YEAST CULTURE

Available Options:

Product No.	Options	Mineral Name	Active Drug	Active Drug Level
1990077		Pro-Phos 8	Non-Medicated	none
1990150	Low-Salt	Pro-Phos 8 LS	Non-Medicated	none
1990107	High copper	Pro-Phos 8 Cu	Non-Medicated	none
1990109	High copper, 10% Mag	Pro-Phos 8 Cu Mag	Non-Medicated	none
1990074	Higher Vitamin E & Selenium	Pro-Phos 8 Fescue	Non-Medicated	none
1990083	TASC0	Pro-Phos 8 TASC0	Non-Medicated	none
1990073		Pro-Phos 8 AU3500	Aureomycin	3500 g/ton

1990076	Higher Vitamin E & Selenium	Pro-Phos 8 Fescue AU3500	Aureomycin	3500 g/ton
1990139	Higher Vitamin E & Selenium, TASC0	Pro-Phos 8 Fescue TASC0 AU3500	Aureomycin	3500 g/ton
1990145	TASC0	Pro-Phos 8 TASC0 AU5600	Aureomycin	5600 g/ton
1990081	Horn fly control	Pro-Phos 8 w/ Altosid	Altosid	180 g/ton
1990078	Horn fly control, Anaplasmosis	Pro-Phos 8 Altosid Plus	Altosid Aureomycin	155 g/ton, 5600 g/ton
1990072		Pro-Phos 8 B-1440	Bovatec	1440 g/ton

Product Features:

Contains 8% Phosphorus which fits well into year-round mineral supplementation in most geographic regions

Provides optimum levels of trace minerals at a 3 ounce consumption rate

Contains distillers dried grains with solubles

Contains Diamond V's "XP" yeast culture for improved mineral palatability

Tasco, a brown seaweed (*Ascophyllum nodosum*) from Nova Scotia

Product Benefits:

Provides necessary phosphorus, vitamins and other trace minerals for improved growth rate and reproduction

Aids in disease prevention, improves fertility, and promotes fetal development

Improved palatability and more consistent intake

Better palatability helps maintain consistent feed intake.

University research has demonstrated:

1. Improved grazing behavior and weight gain of cattle on endophyte-infected fescue pasture
2. Improved rumen fiber digestion
3. Reduced body temperatures in heat challenged animals receiving endophyte infected fescue diets and endophyte free fescue diets and in the feedlot cattle
4. Reduced horn fly populations on grazing cattle
5. Reduced weight loss (shrink) in cattle after shipping
6. Increased blood and liver levels of selenium and vitamin E resulting in improved immune response

Usage Tips

Pro-Phos 8 TASCOS Mineral can be fed to all cattle on medium quality range or grass. Optimum intake is 2-4 oz. per head daily.

To assure adequate mineral intake, **remove all other salt and mineral products**. Have an adequate water supply available and place the mineral feeder near the water supply or in the animals' loafing areas. Put out fresh mineral at least once a week. An upright covered mineral feeder is recommended to protect the mineral.

Tasco® is a registered trademark of Acadian Agritech, Dartmouth, Nova Scotia, Canada

CAUTION: Do not feed to sheep or allow sheep access to this mineral because of the high level of supplemental copper.

Key Points

1. Ideal for breeding and growing cattle on medium-quality range or grass pasture.
2. Use one mineral for whole herd; lactating and breeding cows, replacement heifers and bulls, or summer stocker cattle.
3. Complete macro mineral, trace mineral and vitamin supplement.
4. High copper formulas available for areas with chronic copper deficiencies or areas with copper antagonists (high environmental molybdenum, sulfur or iron).
5. Fescue minerals specially formulated for meeting requirements and overcoming deficiencies of cattle grazing fescue pastures.
6. Tasco option helps increase grazing time of cattle in fescue based pastures leading to improved performance.
7. Pro Phos 8 LS (low salt) is designed for areas where salt content of the water or soil is high.
